Using Nikhef home and project folders on the go

To mount your Nikhef home or project directories, after having established your eduVPN Institute Access connection, open an Explorer window and select "Map network drive":

🂐 🗹 📜 🗸 This	PC			
File Computer	View			
Properties Open Rena	Access Map network Add a network Iocation ap network drive			
← → × 😻 Di	sconnect network drive			
My files	> Folders (7)			
🤙 This PC	> Devices and drives (7)			
👆 3D Objects				
🔚 Desktop				
Documents				
🔈 Downloads				
Music				

in the dialog box, select a free drive letter (for example "N:" for Nikhef) and type the UNC network path. Be sure to select "Connect using different credentials" so that you can enter your Nikhef login username and password:

	9 Man Naturale Drive	×
£.	Map Network Drive What network folder would you like to map? Specify the drive letter for the connection and the folder that you want to connect to: Drive: N: Folder: N: Lxample: \server\share Connect using different credentials Connect to a website that you can use to store your documents and pictures.	
	Finish Cancel	

Enter your Nikhef username with "NIKHEF\" in front of it, and give your passphrase. For additional security, leave "Remember my credentials" **UN**checked, unless you have full disk encryption (Bitlocker) enabled:

Enter your credentials to connect	to: beuk.niknet.ni	
·····	6	
Remember my credentials		to connect to:
More choices		Browse
ОК	Cancel	
Connect to a webs	amerent oredentidos	our documents and pictures.
		Finish Cancel

Wait for this window to disappear:

Map Network Drive	×
Attempting to connect to \\beuk.nikhef.nl\user\davidg	
Cancel	2

The additional drive now shows up in your explorer window and can be used!

File Computer	/iew			
Properties Open Rename Location	Access Map network Add a network media • drive • location S Network	Open Settings & Manage System		
← → ~ ↑ 🤜 >	This PC >			
🛩 🍃 This PC	> Devices and drives (7)			
 JD Objects Desktop 	✓ Network locations (1)			
 > B Documents > Downloads 	davidg (\\beuk.nikhef.n	I\user) (N:)		
> 🚺 Music				

The same can be done for project and wproject directories. You can use any free drive letter to add the ones in addition to the current one (and will not have to provide your credentials again.

To unmount and disconnect the remote drives once you are done, use "disconnect network drive" from the network drive menu button, or use the context menu (right-click) of the virtual drive:

Remember to disconnect drives first before terminating your eduVPN connection!
