

Meeting minutes 07-10-2024

Participants: Carolina, Vu, Luise, Clara

Minutes:

ECS meeting: meeting is to come, strategy day, but what kind of strategy is unclear, so our participation is also unclear. If, as it seems, it is only scientific, how can we contribute?

Junior colloquium: no attendance from us

Carrer event at UvA: looking for volunteer of us to go, ask Pranati and Mariia if they can (live in Amsterdam)

Topical Lectures: 18-20 Nov in Amsterdam, presentation should come from next council, but social event; repeat from last time, meeting and chatting

Exit interviews: Juan asked us to have at least 1 in person interview before they incorporate this to Nikhef. Need to find someone to do it. Should we contact the people who answered the form and ask specifically if they want to do the in person interview or if they had any problem in following through? Clara will contact a former PhD. Luise will remind again and ask for specific feedback on the in person interview.

Handover: 4 interested people, no one from ATLAS and Dark Matter. We should set a date, last week of October / first week of November. Luise will prepare a presentation of the roles of the PhD Council. Who could be the new chair? Clara, Luise and Carolina agreed to follow through the exit interviews and join for a couple more meetings, while leaving the stage for the newcomers, to help guide them through the responsibilities.

Academic solidarity group in Amsterdam: in person event at Nikhef in October, asking for PhD council's help in spreading the posters through the universities
