<i>Document(s) Received: EDMS Document no. 382302</i>			
<i>Building(s)</i>			
<p>TIS approves the design of the Lifting Points for the Vertex Locator Detector (VELO) Stand.</p>			
<p>REMARKS:</p>			
<p>Attention must be paid during test and use of the lifting device as the center of gravity of the detector is above the lifting point.</p>			
<p>M.Castoldi TIS/GS</p>			
<p>NB: For tests and inspections, please contact TIS-GS-MS Staff</p>			
<hr/> <p>NB: These remarks are based on the specific items(s) actually presented. Further remarks may be forthcoming during the development of the project</p>			
<p>NB : Le projet sus mentionné a été étudié en fonction des données actuelles. D'autres remarques peuvent encore être faites en cours d'évolution du projet.</p>
